1. Supported on the basis of also holding a public referendum
2. NZ First supported this bill, but did force Labour / Greens to accept an amendment which helped maintain the ability for legal sanction - rather than full decriminalisation as intended by Labour / Greens
3. National support medicinal marijuana, but opposed this bill because "smoking is not medicine", a concern that Family First shares.
4. A counselling ban for youth with gender confusion (aka "conversion therapy") is a ban on any attempt by parents or counsellors to reduce gender dysphoria by helping the child become comfortable with their biological sex. These bans are really about locking children into transgenderism.
5. Raise price, raise purchase age, reduce accessibility, reduce advertising & sponsorship, target drink-driving (plus increase treatment availability).

* Based on public statements or votes
 "Didn't vote" = was a current MP but either abstained or didn't show up for the vote
 Labour leader **Jacinda Ardern** refused to complete our questionnaire. Where possible, we have recorded a response based on her voting record and/or public statements. We surveyed co-leader **Marama Davidson** whose responses were identical to **James Shaw**. The **Māori Party** also refused to respond to our questionnaire.
 The **New Conservatives** were surveyed because a significant number of their policies align with the positions of Family First NZ, and they are currently appearing in the political polls. This in no way should be taken as an endorsement of the party as a whole.
 # Since the new appointment of Judith Collins as leader of the National Party, we have sent our questionnaire for her to complete. At time of reprinting this Guide, we had not received a response. Check our website for updates.
